PROJECTS

Personal Portfolio Website

moazmostafa569.github.io/My-Portfolio

- Designed and built a personal developer portfolio featuring a distinctive code-editor-inspired aesthetic with interactive UI demos.
- Structured the project as a clean, maintainable codebase organized for easy handoff and future iteration.
- Implemented responsive layouts and smooth navigation to effectively showcase projects and skills to potential clients and employers.

SUNDRY — General Goods Co. (E-Commerce Storefront)

- Built a full e-commerce storefront UI using Vite, vanilla JavaScript, and Tailwind CSS, integrated with the Route e-commerce API.
- Architected the codebase into modular folders (api, state, utils, components, views) for clarity and scalability.
- Implemented hash-based client-side routing and in-memory authentication token handling for a secure, SPA-style user experience.
- Followed a full design-to-code workflow, translating UI concepts into a functional, responsive storefront.

EDUCATION

High School Student — General Secondary Certificate (GSC)

Expected Graduation: 2027 | Cairo, Egypt

CURRENTLY FOCUSED ON

- Building freelance-ready frontend projects with clean, professional architecture.
- Actively seeking junior remote or freelance frontend opportunities.
